

SOMETHING NEW FROM WARATAH!

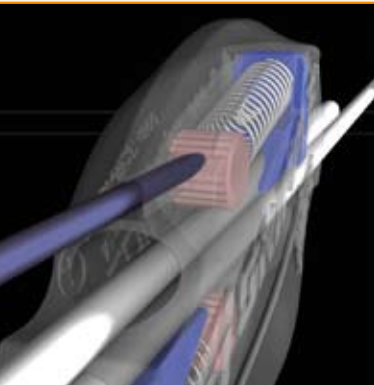

WARATAH GRIPPLE® PLUS

FOR SIMPLE WIRE JOINING & TENSIONING

The NEW Gripple Plus range is now complete! WARATAH released the Gripple Plus Medium earlier this year and now the Gripple Plus Large has arrived. Familiarise yourself with the features and benefits of the new range and some of the changes that have been made to improve the Gripple Plus.

The New Gripple Plus

Gripple Plus mechanism

Patented Gripple ceramic rollers

Feature	Benefit to User
New Gripple Plus Range - designed and developed to work better with WARATAH® wire.	WARATAH wire and Gripple Plus joiners now have a perfect balance between speed and reliability.
New ceramic roller technology	Improved wire holding. Rollers will not corrode.
Push fit wire locking mechanism	Quick and easy wire joining. No more bending, twisting and tying wires.
Stainless steel springs	High quality corrosion resistant components used throughout.
Wider range of wider diameters	Use Gripple with more wire products than ever before.
Higher maximum working loads	Even better working wire load capacity.
Up to 6 times faster than conventional joining methods	Saves you time and money.
